Master Cover Letter

For DOJ, FBI, FERPA, STATE AG, HUMAN RIGHTS ORGANIZATIONS

From:

James Alexander Wasil

(Current location: Saipan, CNMI)

Subject:

Thirty Years of Documented Abuse, Identity Manipulation, Record Destruction, Estate Fraud, and Systemic Obstruction Across Multiple U.S. Jurisdictions

To Whom It May Concern:

I am submitting this packet because I have exhausted every normal channel of protection available to a U.S. citizen. What I present is not a single incident, but a documented, multi-decade pattern of abuse, deprivation, fraud, misidentification, and deliberate obstruction that has occurred across Guam, Ohio, Arizona, Illinois, and multiple federal systems.

This packet contains evidence establishing:

1. Educational Record Destruction (1996-present)

As a minor on Guam, while I was held in a manufactured juvenile confinement under false pretences, my step-father **John M Wise (also known as Jack R. Wise)** removed or altered my academic records at George Washington High School, Mangilao, Guam.

This erased 12 years of schooling and prevented any transition into adult education or employment.

My repeated attempts to obtain my records (2000, 2003, 2005, 2008, 2012, 2013 and again in 2023) were ignored, denied, or met with excuses such as “the records burned in a fire”, which violates FERPA and Guam DOE retention requirements.

2. Identity Manipulation Using “James Robert Wasil”

For more than a decade, my half-siblings **Wendy Wasil** and **Charles Wasil** exploited the existence of a separate individual, **James Robert Wasil**, to misidentify me.

This was used to:

- derail police investigations
- distort medical and court records
- justify blocking me from my father
- justify excluding me from probate (Akron, Ohio; Summit County courts)
- falsely present me as a criminal in Arizona

This constitutes identity theft, obstruction, and defamation.

3. Estate Fraud Targeting the Assets of My Father, Alexander Wasil

While I was incapacitated by a stroke in November 2021, unable to speak and defend myself once I survived and emerged from a coma, my siblings executed a coordinated estate scheme:

- forging my father's signature on a quit-claim papers that had originated with my mother Debbie.
- blocking all communication between myself and my father
- using the criminal identity of "James Robert Wasil" to erase me
- misrepresenting my whereabouts to the probate court
- rapidly selling property through a shell entity "Wasil & Co"

This was a premeditated, multi-state estate theft operation.

4. Wrongful Cremation and Destruction of Evidence

Immediately after my father's death, my sister ordered an unwanted, rapid cremation – contrary to his stated wishes.

This eliminated the possibility of:

- toxicology
- abuse investigation
- confirming medical cause
- comparing handwriting for forgery

The timing aligned with probate maneuvering.

5. Disability-Based Exploitation After My Stroke

While I was unable to communicate:

- my mother. **Debbie**, removed my father's belongings from me, along with remnants of my aunts. uncles, ex-girlfriends, and anything I had to remind me of my father.

- she took settlement checks, deposited them fraudulently, and caused over **$3,000 in NSF fees** and left back to Guam the day after.

- my identity documents disappeared during interstate travel

- my credit cards were later used across multiple states

- I was unable to dispute charges due to the speech impairment and documented aphasia

This reflects financial abuse of a disabled adult.

6. Federal Reporting Has Been Ignored for Years

I filed multiple FTC and **FBI IC3 reports**, including a detailed submission in 2024 along with an Ohio APS report, and FBI submission again in 2021. None resulted in contact, review, or investigation.

7. Internationally Recognized Human Rights Violations

This case involves:

- deprivation of education
- denial of identity
- exploitation of a disability
- systemic obstruction
- institutional failures across states and agencies
- long-term targeting of a vulnerable individual

These meet criteria used by international human rights monitors.

Purpose of this packet:

I request:

1. A federal investigation into identity theft, estate fraud, fogery, elder abuse, and interstate coordination.

2. DOJ Civil Rights Division review for the prolonged deprivation of rights.

3. FERPA enforcement for concealed and destroyed education records.

4. State-level investigations (Ohio, Arizona, Guam/NMI)

5. International human rights oversight due to systemic failures

Attachments

- Affadavit with exhibits
- Estate fraud evidence
- Probate documents
- Identity theft filings
- Misidentification records
- Education record correspondence
- Financial exploitation documentation
- Timeline of events
- Communication records

Closing Statement

For thirty years, every system I turned to has failed to act.

This case involves documented:

- abuse
- manipulation of identity
- destruction of evidence
- systemic obstruction

- exploitation during disability
- forged legal documents
- multi-state fraud

I am requesting the first independent and comprehensive review this case has ever received.

Sincerely,

James Alexander Wasil
